

16th Annual

Peak Cyber Symposium

September 9 - 10, 2026 | The Antlers Hotel, Colorado Springs, CO

Sponsor Prospectus

The Information Systems Security Association (ISSA) - Colorado Springs Chapter invites you to participate as a sponsor or exhibitor at the **16th Annual Peak Cyber Symposium**, taking place **September 9-10, 2026**, at the **Antlers Hotel in Colorado Springs, Colorado**.

This event brings together military, government, academic, and industry leaders from across the Rocky Mountain region and beyond who are focused on advancing cybersecurity, IT modernization, operational resilience, and mission-driven technology collaboration. This year's theme is ***"Driving Operational Advantage Through AI, Cyber, & Space"***.

Topics will include AI/ML, cybersecurity, cloud technologies, Zero Trust, critical infrastructure protection, operational communications, data management, emerging technologies, and cyber readiness initiatives supporting today's evolving threat landscape.

Peak Cyber provides a unique environment for meaningful engagement with decision-makers, technical leaders, and operational stakeholders shaping the future of cyber and IT operations across government and industry.

If you're looking to engage directly with leaders driving cyber and technology modernization efforts throughout the defense, government, and critical infrastructure communities, this is the room.

Space is limited. Register to sponsor today!

SPONSOR & NETWORK

Sponsor Peak Cyber and network with cybersecurity and IT professionals from across the Department of Defense, including from U.S. Space Force, U.S. Air Force, Missile Defense Agency, and the Army. Peak Cyber Symposium attracts mission-focused professionals from across the Rocky Mountain region and beyond who are actively shaping the future of cybersecurity, operational technology, AI, cloud modernization, and national defense initiatives.

More than 600 attendees are expected to participate in the 2026 event.
